

ISISL

Partner offer · Global Property promoters

More visibility. More nights sold. More of the money kept.

Isisel is the booking channel that puts the properties you promote in front of travellers—and lets founding partners keep the night instead of handing a cut to a traditional OTA.

In this pitch

- 01 The money & visibility pitch
- 02 Why Isisel vs OTAs
- 03 Demand on the home screen
- 04 Bookings that pay
- 05 Occupancy you can push
- 06 Close guests faster
- 07 Scale the catalogue
- 08 Price & keep the night
- 09 Yield the calendar
- 10 Service that sells again

REACH

New guest demand

REVENUE

Nights you convert

MARGIN

Keep the night

THE OFFER

Visibility that fills calendars. Economics that keep the night.

01 VISIBILITY

Be found by travellers

Isisel is a marketplace for African stays. The properties you promote get a public listing page and sit in a catalogue guests already browse—another door beyond Airbnb and Booking.com.

02 BOOKINGS

Turn views into paid nights

Guests request dates on the platform. You confirm, collect payment with the guest, and fill nights that would otherwise sit empty. Every live listing is a shop window that can earn.

03 MONEY KEPT

Founding hosts keep 100%

No traditional booking-platform commission on the night while founding terms apply. A €500 stay keeps the night's value with you and the owner—not a percentage lost to an OTA.

WHY PROMOTERS CHOOSE ISISEL

Another channel that pays differently.

You already promote properties. Isisel adds demand and improves what you keep when a night sells.

New demand

Reach travellers looking specifically for African vacation stays—not only OTA searchers.

Higher retained revenue

Founding partners avoid the usual platform cut on the night.

You stay in control

Requests you approve. Rates and calendars you set. Guests you message.

Proof it is real

A live Host Console—listings, bookings, pricing—not a slideware promise.

THE MATH THAT SELLS

Same €500 night. Different outcome.

TRADITIONAL OTA

Guest books a €500 stay
Platform takes a %
You and the owner keep less

ISISEL · FOUNDING HOSTS

Guest requests a €500 stay
No traditional night commission
More of that night stays with you

Illustrative. Terms at Isisel's discretion.

VISIBILITY · LIVE ON THE MARKETPLACE

Your properties get seen—and you see the demand

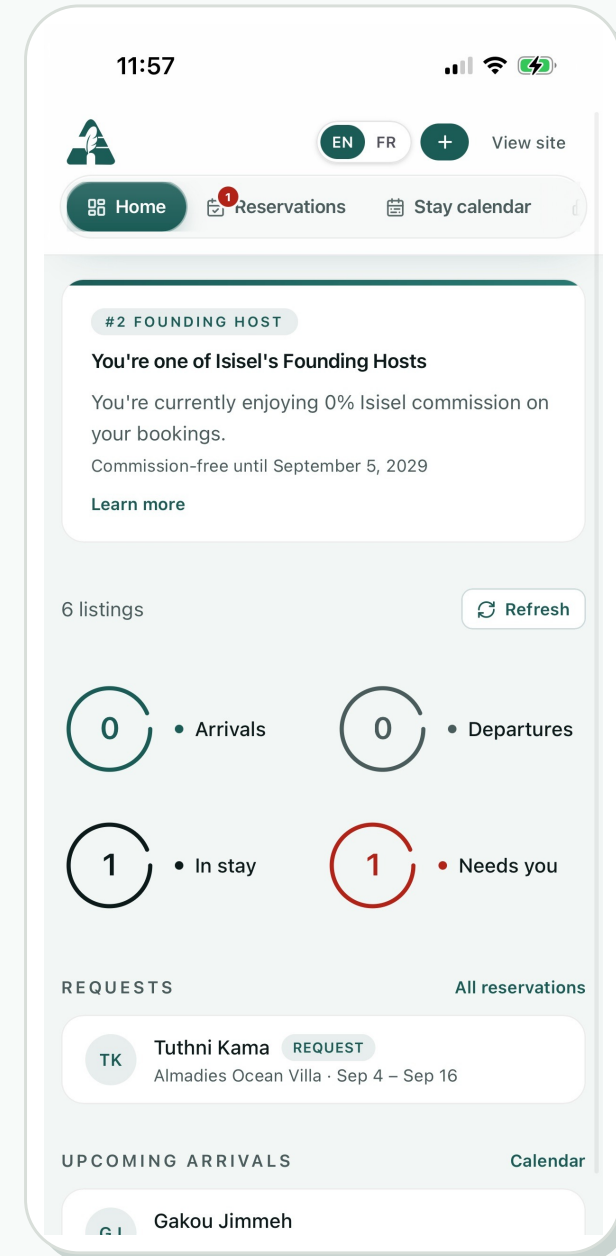

Isisel puts stays in front of travellers. The home screen shows which listings are pulling requests.

Why this makes you money

- Founding Host badge signals early partners who keep more of each night
- Needs-you and requests = real guest intent, not vanity traffic
- More visible listings → more enquiries you can convert to paid stays

BOTTOM LINE

Visibility that turns into reservation requests you can close.

REVENUE · BOOKINGS YOU CONTROL

Every request is a chance to earn

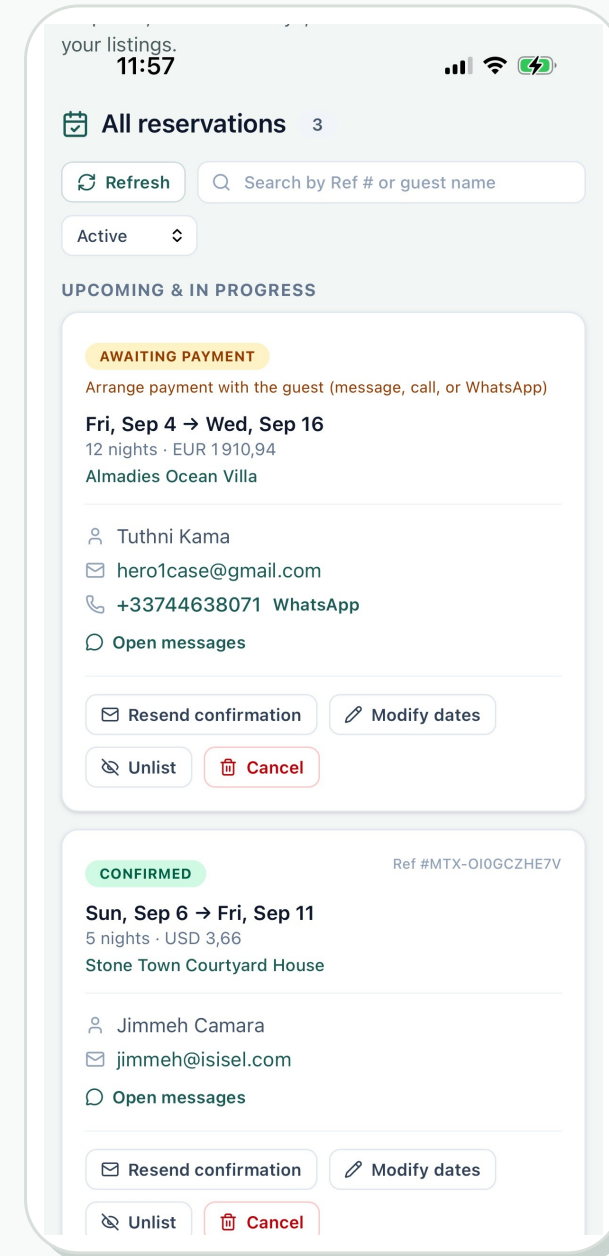

Guests ask for dates. You confirm, arrange payment, and protect the night's value.

Why this makes you money

- Awaiting-payment stays mean money in motion—you chase and close
- Confirmed bookings lock revenue for the properties you promote
- Modify, resend, or cancel without losing the commercial thread

BOTTOM LINE

A second booking channel beside OTAs—more nights sold, more retained.

FILL RATE · PORTFOLIO OCCUPANCY

Spot empty nights before they cost you

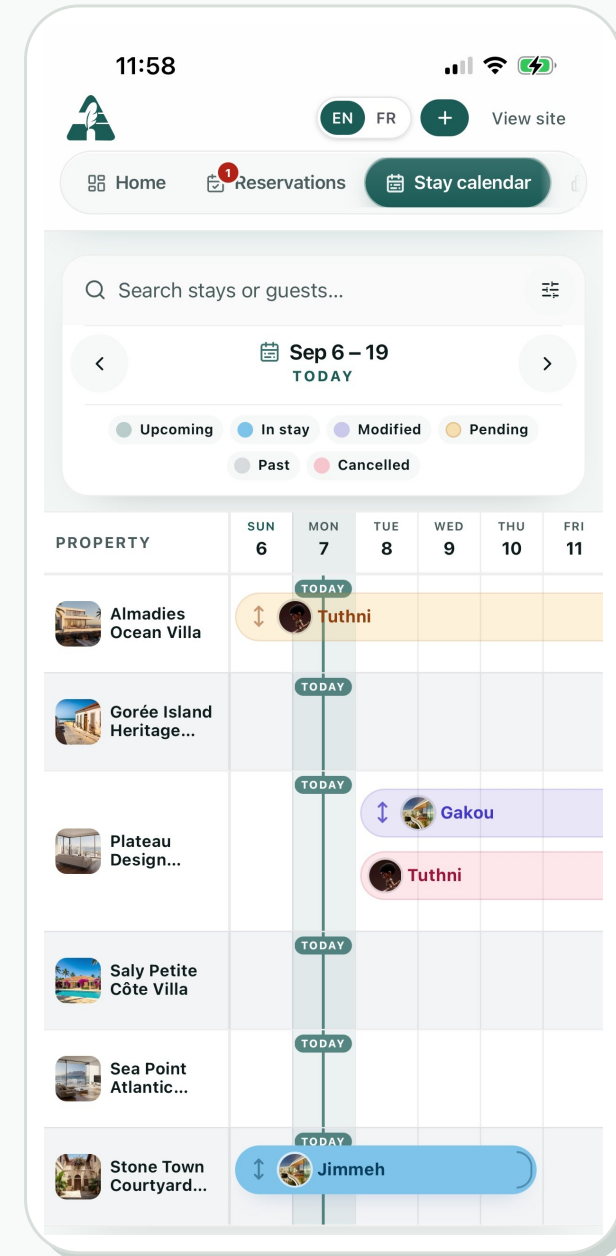

Empty calendar cells are lost revenue. The stay calendar shows where to push visibility.

Why this makes you money

- See which properties are booked vs open across the date range
- Pending and upcoming stays = pipeline you can nurture
- Promote under-filled listings harder where gaps show

BOTTOM LINE

Higher occupancy across the portfolio you represent = more fees and nights.

CONVERSION · CLOSE THE GUEST

Turn interest into a paid stay faster

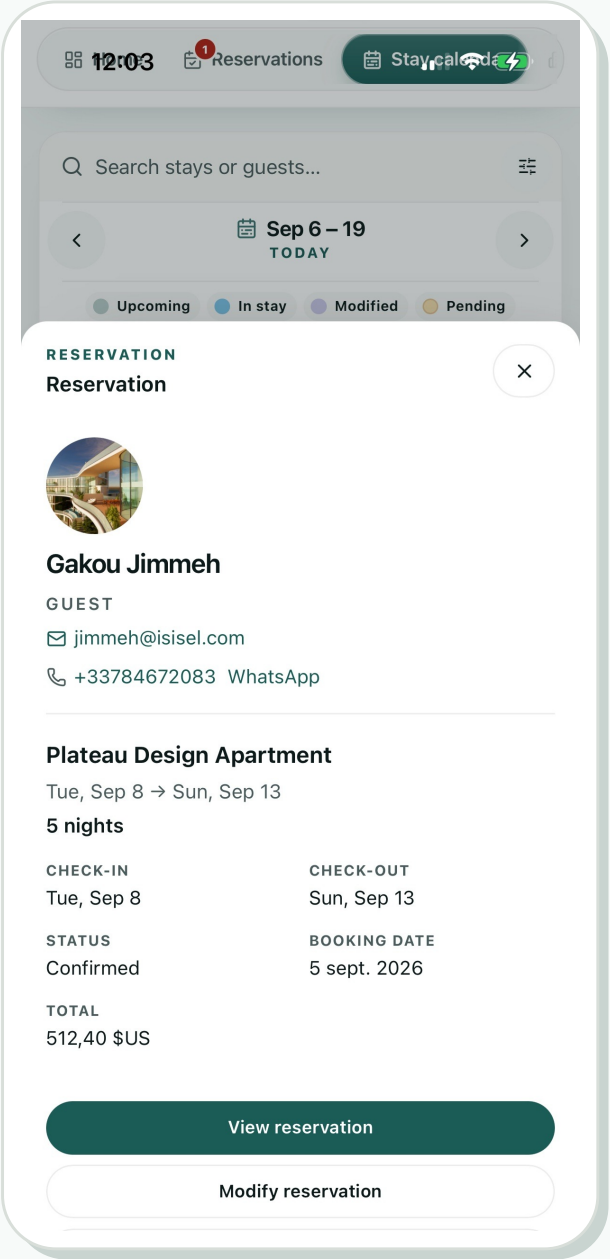

Guest details, totals, and WhatsApp in one place—so nothing stalls between enquiry and payment.

Why this makes you money

- Contact the guest immediately; shorter time-to-confirm
- Clear stay total and status reduce back-and-forth that kills deals
- Modify when needed to save the booking instead of losing it

BOTTOM LINE

Faster replies win the booking before the guest goes elsewhere.

SCALE · MORE LISTINGS, MORE REACH

Grow the catalogue you promote

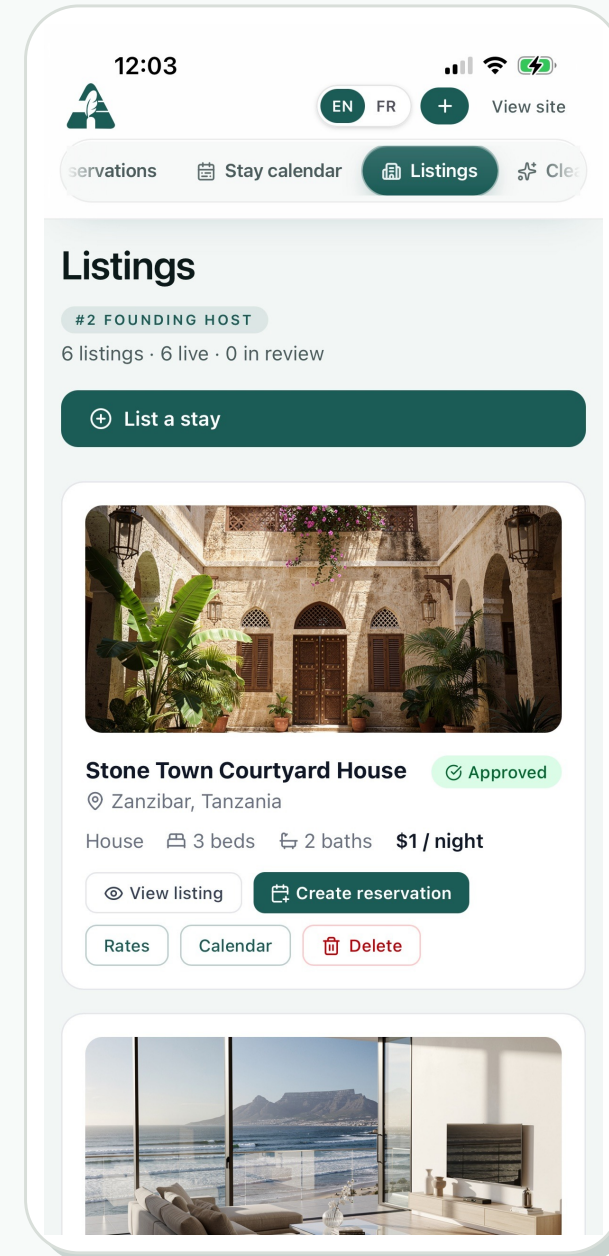

Every live listing is another shop window on Isisel—and another path to revenue.

Why this makes you money

- Put hotels, villas, and houses in front of travellers searching African stays
- Live vs in-review status so you know what is earning visibility today
- Create reservations and push rates without leaving the portfolio view

BOTTOM LINE

More live properties → more discoverable inventory → more booking chances.

MARGIN · YOU SET THE PRICE

Price for profit—keep the night

Founding hosts list without traditional platform commission on the night. Your rate is your revenue.

Why this makes you money

- Set nightly, weekly, and monthly rates that match the market
- No traditional OTA cut eating the stay while founding terms apply
- Preview the guest-facing price before you publish

BOTTOM LINE

€500 stay example: keep the night's value—not lose a % to an OTA.

Stone Town Courtyard House
Zanzibar, Tanzania

Set prices in USD for Stone Town Courtyard House. Leave a field empty if you do not offer that period. At least one rate is required.

NIGHTLY Per night stays

\$ 1

WEEKLY Week-long stays

\$ 1

MONTHLY 28+ night stays

\$ Not offered

Listing preview

From \$1/ night

Example 3-night stay: \$3 (3 nights)

YIELD · SMART AVAILABILITY

Open nights when they should sell

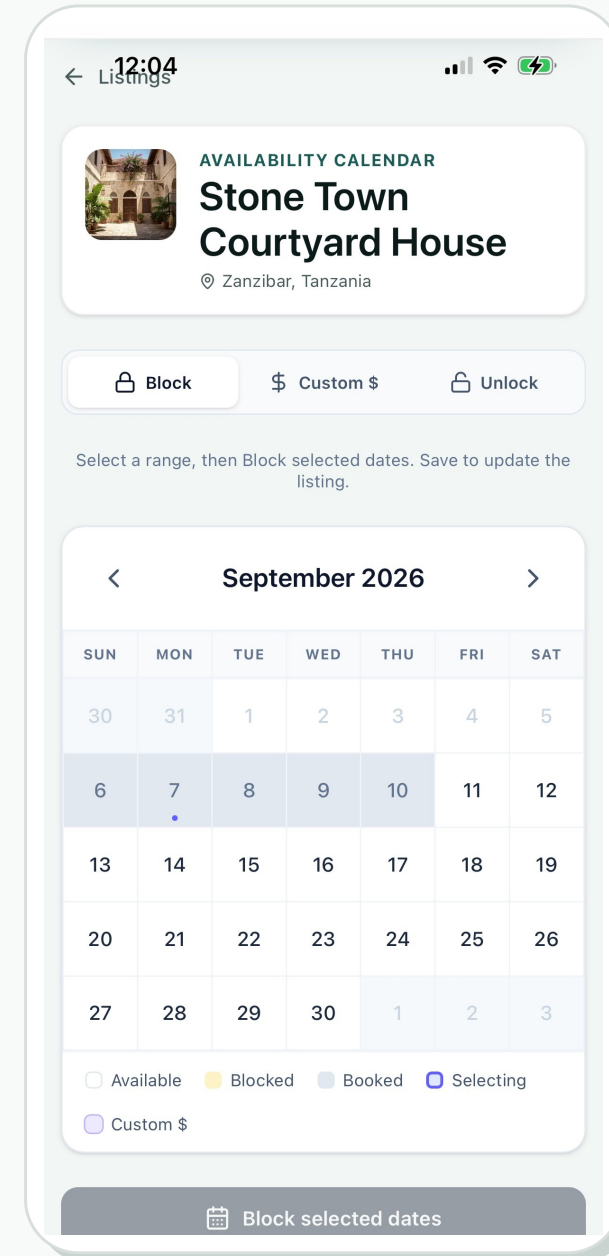

Block owner use, unlock peak dates, and add custom pricing where demand spikes.

Why this makes you money

- Stop selling nights the owner needs—protect reputation and relationships
- Custom \$ on high-demand dates lifts revenue per stay
- Accurate inventory = fewer failed bookings and better guest trust

BOTTOM LINE

Better yield on the nights that are actually for sale.

RETENTION · GUEST RELATIONSHIP

Messages that protect repeat business

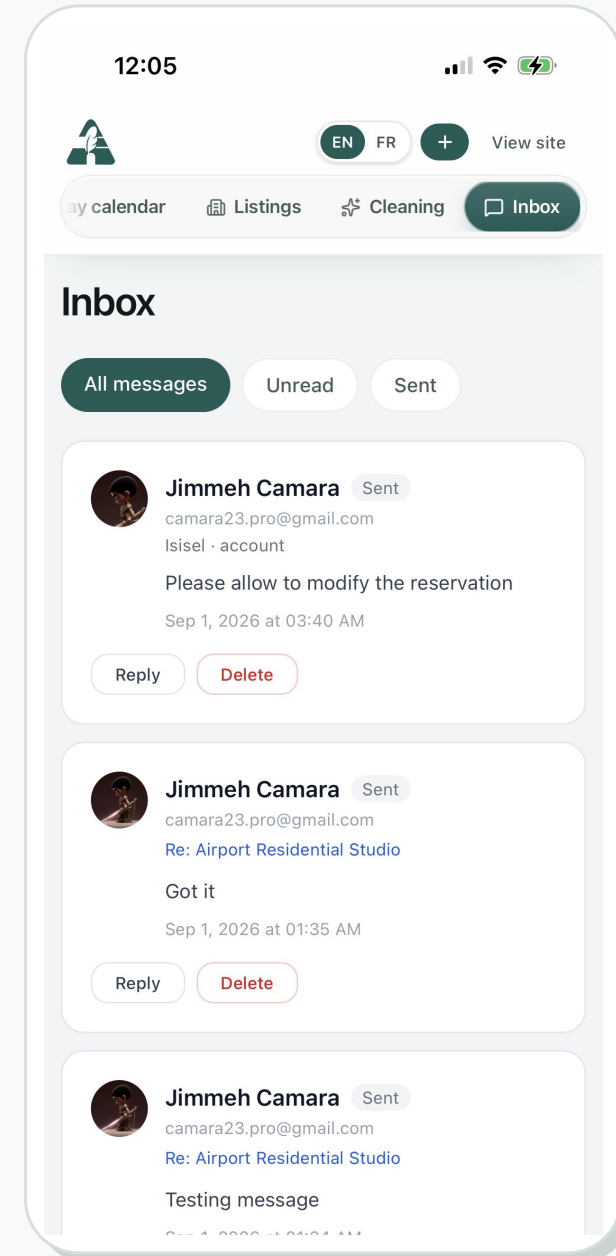

Guests who feel answered book again—and leave reviews that boost visibility.

Why this makes you money

- Reply in-thread so no lead dies in a personal WhatsApp pile
- Unread filters surface money-sensitive conversations first
- Strong service → stronger listings → more organic discovery

BOTTOM LINE

Service quality compounds into reviews, rank, and future nights sold.

START EARNING ON ISISL

Put your properties where guests look—and keep more when they book

- 01 List the properties you promote on Isisel
- 02 Get Founding Host economics while the catalogue grows
- 03 Convert visibility into confirmed, paid nights

- ☑ Visibility
- ☑ Bookings
- ☑ Margin kept
