

MVP LAUNCH · FOUNDING HOSTS

The best place to list a stay *in Africa*

A marketplace built for African homes — not leftover inventory on a global board.

Isisel is live at www.isisel.com. We are inviting founding hosts — apartments, villas, guesthouses, lodges — to put their door on the map while the catalog is still taking shape.

Early listings get the attention later properties will compete for. **Founding hosts keep the night. We take none.**

Why this is the right home for your stay

Travelers who want a house — not a hotel — are already searching from Dakar to Nairobi. Global platforms treat Africa as an afterthought. We built the opposite.

01 · ECONOMICS

Zero commission for founding hosts

You set the rate. You and the guest agree how to pay. **We take no cut** on founding-host listings while the marketplace grows.

02 · CONTROL

Requests, not missed calls

Guests ask for dates in the app. You answer when you cook, drive, or sleep. **Nothing books itself** behind your back.

03 · TOOLS

One quiet host console

Calendar, requests, and messages live together. WhatsApp stays for hospitality — not for hunting who asked what, when.

04 · PLACE

Built for here

isisel.com is an African vacation-rental marketplace. Your listing sits with other African homes — not buried under millions of unrelated stays.

05 · TIMING

Be in the first catalog travelers see

Founding hosts are not waiting for demand to arrive. They are the catalog. Less competition for attention in your city. A direct relationship with the people building the platform. Your feedback shapes host tools as we grow.

What you can list

If guests can stay the night, we want to hear from you — anywhere in Africa we operate or plan to open.

Apartment

Villa

House

Guesthouse

Lodge

Cottage

Studio

Hotel

Resort

Family home

Three steps

01

Apply

Create an account and start host onboarding at www.isisel.com/host/onboarding.

02

Describe the stay

Location, rooms, guests, photos, house rules, and the rate you want.

03

Go live

Our team reviews. When approved, travelers can request your dates.

List the stay.

Founding-host terms while the catalog is young. A short application. Real people when you need them.
