FOUNDING HOSTS · AFRICAN VACATION RENTALS

Your stay belongs on the map of *Africa*

A marketplace built for African homes — villas, guesthouses, lodges, family houses — not leftover inventory on a global board.

You set the rate. Guests request dates on www.isisel.com. **Founding hosts keep the night.**
We take none.

Homes that look like the continent

Travelers want the courtyard, the late swim, the terrace at golden hour. They should find you — not a listing buried under millions of unrelated stays.

01 · ECONOMICS

You keep 100% of the night

Founding hosts set the rate and keep it. **No commission** while the catalog is taking shape.

02 · CONTROL

Requests, not missed calls

Guests ask for dates on Isisel. You answer when you can. **Nothing books itself** behind your back.

03 · PLACE

Built for here

Your listing sits with other African homes — Dakar to Nairobi — not as an afterthought on a global board.

04 · TIMING

First catalog travelers see

Early listings get the attention later properties will compete for. A direct line to the people building the platform.

What you can list

If guests can stay the night, we want to hear from you.
